

READY TO INNOVATE THE WAY WE WORK?

OUR APPROACH

Learn theories, practices and tools to shape organizations of the future!

Experience yourself in how you handle complexity. Collaborate with pioneers in the field to create **your unique** learning journey.

An intense
1-YEAR LEARNING
PROGRAM to help you
create a fundamental
shift in the way
we work, lead and
organize.

NEXT:PEDITION

2nd edition

A learning LAB from
now:land to next:land

THE CHALLENGE

Today's organizations are formed by the needs of the industrial revolution: Hierarchies of people and power respond to **questions from the past**. But digitalization, complexity and speed force us to fundamentally think and **act differently to succeed** in this new environment.

“ What I found in
the next:pedition were
like-minded people
who are willing to explore
next:land and to work on
new organizational
forms and structures.
These people are absolutely
passionate about
making a difference
in the current world of work
and try to find ways on how to
overcome hurdles so
many companies and
people are
currently facing! ”
